ARCHITECTURAL LIGHTING
REFERENCE PROJECTS

ASTERA-LEDs.com

INTRODUCTION

With the finest German R&D, adaptable technology and cost-effective solutions, Astera brings you advanced, custom-built lighting for your project ideas.

The benefit of Astera's architectural range is in its adaptability and its proven and expressive uses for LED fixtures. Astera is able to adapt any and all of its architectural technologies to fit with or into any conceivable project or design.

With a vast and experienced research and development team, Astera has the knowledge and experience to manufacture architectural lighting for any project. We specialize in retail and commercial decorative lighting, but we are always seeking new and inventive lighting projects.

Many of our solutions, especially our chandeliers, are one-of-a-kind and very sought after eye-catchers with our clients. All of our range is fully customizable and we look forward to providing you with our advanced LED solutions.
